CATERPILLAR® C6.4

DRiV™ announces the availability of FP Diesel **Pistons, Piston Ring sets and Piston Kits** for the Caterpillar C6.4 engine, ESN prefix GDC1-UP. The C6.4 replaces the 3066 engine and is used in popular Caterpillar 320D, 321D, & 323D excavators.

Our piston kits include pistons, piston rings, pins and retainers, and are available in three different sizes – Standard, 0.25MM and 0.50MM oversize. We also offer a repair sleeve to return the bore to standard size.

- FP Diesel's C6.4 pistons are made in our manufacturing facility using the latest technologies; We control all critical processes from casting to final machining.
- The alfin insert bond is checked ultrasonically to ensure optimal performance.
- A skirt coating is added to reduce friction and wear, and protect against galling during break-in.

For sure-fire reliability, next time you need new parts fit FP Diesel parts in your engine.

Backed up by our 2-year warranty.
